

**Programmer/Analyst (Web Developer), Penn Museum /Digital Media Center, University of Pennsylvania, Philadelphia, PA**

The Penn Museum is looking for a personable, self motivated person to support our internal and external websites (both using the Joomla CMS). Additionally, this person will help put our new installation of KE EMu (our collections management database) on the web. Professional experience in design, development, integrations, and software solutions based on web technologies is a must. They should be proficient in PHP as well as MySQL and various other smaller database platforms such as Access and Filemaker Pro. The candidate should be comfortable with face to face interaction and be prepared to provide desktop support and training for applications. This position requires a BA in Computer Science or related field and 2-4 years of experience, or an equivalent combination of education and experience.

Resumes and inquiries should be sent to [itsupport@museum.upenn.edu](mailto:itsupport@museum.upenn.edu)
